Profile

DevOps Engineer running Kubernetes and Helm platforms and CI/CD pipelines. At Northwind I built GitHub Actions pipelines with SonarQube checks, cutting failed deployments by 25%. At Contoso I moved EC2 services to Amazon EKS with Terraform.

Experience

Northwind Cloud GmbH **Jan 2025 – Present**
DevOps Engineer *Berlin, Germany*

- Built GitHub Actions pipelines with SonarQube checks, cutting failed deployments by 25%.
- Operate Kubernetes namespaces for test and staging environments and manage Helm releases for 8 internal services.
- Set up Grafana dashboards and alerts for the platform team.

Contoso Analytics GmbH **Apr 2023 – Dec 2024**
Working Student, Cloud *Munich, Germany*

- Moved EC2-based services to Amazon EKS with Terraform.
- Cleaned up unused AWS resources, lowering the monthly bill by 15%.

Contoso Analytics GmbH **Apr 2024 – Sep 2024**
Master's Thesis (MLOps) *Munich, Germany*

- *Thesis: Automated Deployment of Text Classifiers*
- Built a CI/CD pipeline for ML models with GitHub Actions and Terraform.

Fabrikam Software Ltd **Jun 2021 – Mar 2023**
QA Engineer *Remote*

- Wrote 120 automated test scripts with Selenium.

Technical Skills

Containers & Orchestration: Kubernetes, Helm, Docker, Argo CD
CI/CD: GitHub Actions, Jenkins
IaC & Cloud: Terraform, Ansible, AWS
Languages: Python, Bash

Education

Example University **2022 – 2024**
M.Sc. Computer Science *Berlin, Germany*

Projects

GitOps Demo Cluster | *Argo CD, Kubernetes, Helm*

- Set up a demo cluster where Argo CD deploys Helm charts from a Git repository.
